The ability to reason is fundamental to human beings. Whatever the discipline or discourse it is important to be able to distinguish correct reasoning from incorrect reasoning. The consequences of incorrect reasoning can be minor, like getting lost on the way to a birthday party, or more significant, for example launching nuclear missiles at a flock of ducks, or permanently losing contact with ...

I'm working on LPL's Exercise 11.21, which asks to provide translations of the English language sentences into First Order Logic sentences. Unlike the majority of exercises in the book, as I understood, this one requires an experienced instructor to check them as it cannot be verified by the automatic grading system which governs the rest of the course.

Course Description. An argument is valid when its conclusion follows from, or is entailed by, its premises. In this course we will investigate an especially important and basic class of valid arguments, those whose validity depends only on the way in which words like 'and', 'or', 'not', 'if', 'some' and 'all' occur in the premises and conclusion.

Existential Elimination is slightly more involved.. Having derived a predicate in a context that makes an assumption that is a witness for an existential statement (outside the context), and the predicate does not include the assumed term, then that assumption may be discharged to deduce the predicate outside that context. 1.| ?y P(y) an existential statement about a predicate 2.| [b] P(b) ...
