[Mathematics_Art_Technology_And_Cinema](#)

Michele Emmer and Mirella Manaresi's collection Mathematics, Art, Technology and Cinema provides a fascinating tour through some of the most recent outings of mathematicians in the movies.... The book of essays grew out of a series of meetings that Emmer has been organizing in Italy for nearly a decade.

In Aesthetic Computing, key scholars and practitioners from art, design, computer science, and mathematics lay the foundations for a discipline that applies the theory and practice of art to computing. Aesthetic computing explores the way art and aesthetics can play a role in different areas of computer science. One of its goals is to modify computer science by the application of the wide range ...
