Our top brands like Strongway, JET, Metalpro, and Shop Fox will help to easily and accurately complete all of your metal-related jobs.

[2019 forecast: Where do metal fabricators stand for the ...](#)

Sheet metal fabrication is the process of forming parts from a metal sheet. 3D CAD files are converted into machine code, which controls a machine to precisely cut and form the sheets into the final part. Typical forming tools are brakes, punches, and dies which can form angular bends and features.
